How do these appointments help your child?

Dental health examinations provide:

- Thorough examinations of their current dental health to catch developing problems early
- Checking for signs of oral cancer for early detection
- X-rays, where clinically necessary, for an in-depth examination of their oral health

Hygiene appointments provide:

- Professional removal of harmful hard plaque on areas that can't be reached by normal tooth brushing
- Advice and techniques – we work with them to prevent tooth decay and gum disease
- Fresher breath and a brighter smile for improved self-esteem.

We believe this results in the complete package to maintain your child's oral health. We recommend joining to help reduce the risk of expensive restorative treatment in the future.
